Longevity - KP Appraisal

Shnamurthy Padhathi has time and again proved to be an accurate method, when the rules of KP are followed strictly. This KP system of sub theory can used to solve any type of queries either through natal charts or horary charts. I have been practicing KP system for a long time giving me very good results.

One of my friend approached me on 3rd August 2018 to know the condition of his father who had an accidental fall on 2nd August 2018 at his native

place, he was immediately admitted in a hospital, where the doctor told him because of head injury, patient being not in a conscious state, hence nothing can be said in the next 48 hours. My friend asked me for an astrological advice, whether his father would recover or not and given his father birth particulars.

Let us see the Rules for Longevity

1. For a native longevity we consider 1,3,8 and twelfth house to these 12, 2, and 7 are maraka sthana
2. For Movable lagna 11th house is the badhkasathana, for fixed lagna 9th house is the badhakasthana, and common sign lagna 7th house is the badhkasthana
3. Consider the houses 8th and 12th planets mars Saturn and nodes may cause accidents
4. The death or death equivalent event may happen during the conjoined periods of maraka and badhaka.

Based on the above tenets, let us analyze the above natal chart to know status of patient

Analysis

As the native is already completed 87 years of age

there is no point in finding out the short or middle or long life of the native and hence let us directly get into the present dasa, bhukthi and anthara to find out favorable or unfavorable period where the native is running.

Presently the native is undergoing Saturn Maha Dasha/ Rahu Bhukthi and Rahu Anthra.

The native Lagna is Meena and the rasi is Dhanush.

Moon is posited in poorvashada constellation.

Mahadasha lord Saturn lord of 11th and 12th posited in 10th house

Saturn is in the star of Venus lord of 3 & 8, whereas Venus is placed in 9th house

Saturn is in the sub of Saturn only

Bhukthi & anthra lord Rahu is posited in 1st house

Rahu is in the house of Jupiter lord of 1 & 10 placed in 4th house

Rahu is the star of mercury lord of 4 & 7 (maraka) posited in 10th house conjoined with dasa lord Saturn

Rahu is in the sub of rahu only.

By looking at above placements, Saturn dasa lord though the lord of 11 & 12, but he is very strong in 12th house because no other planets posited in the star of Saturn, moreover in 11th sun being the occupant, as occupant being stronger than sign lord Saturn, the beauty of KP system

and hence Saturn strongly signifies 12th house. This apart Saturn is conjoined with mercury the maraka of this lagna aspecting lagna lord Jupiter Rahu bhukthi & anthra lord represents Jupiter (1,10, &4), Mercury (4&7 maraka, 10)

Mercury being the maraka & badhaka for the native of Meena lagna represented by Rahu bhukthi & anthra lord and Saturn strongly signifies 12th, shows the native is conjointly running maraka & badhaka periods, fulfills the rule of KP system (Rule 4 above) bestows death or death equivalent event. Before conclude let us see the other maraka 2nd lord mars lord of 2 & 9 placed in 5th in the star & sub of mercury a maraka, hence 2nd also signifies mercury only. In the above the signification of mars, Saturn, 8 & 12th house shows accidental fall of the native is also established.

Hence the running periods of Saturn/Rahu/Rahu are crucial and informed my client the native may not recover and be mentally prepared to face the event.

As predicted by KP system, the native died on 13th August 2018 around 22.30 hrs. On the date and time of death Asc. was passing through his 2nd house of mesha a maraksthana, luminaries sun was transiting in mercury star (maraka) in karakataka and moon was transiting in sun star in simha.
